Consumer Notes:

This month has something that many of us thought we'd never see again: a new release from Orion/Streamline (that would be volumes 5 and 6 of 3x3 Eyes)! The biggest news, though, is probably Pioneer's release of Dragonball Z with two packaging variants (the tapes themselves are identical) ... collectors will almost certainly want them both. If you enjoyed the Crusher Joe movie, you might want to grab the two part OVA release (it's one tape) which ships this month. Finally, we understand that those Ryo-Ohki dolls are now waiting on US Customs (in English, this means that they're really going to show up this month). Our new catalog is in production now, available as soon as we can get it out the door! It should be huge and worth the wait!

JEFF'S PICK(S) OF THE MONTH

Probably the best thing this month is the second installment of the new **Gatchaman OVA** series from Urban Vision ... this is the "Red Impulse" storyline which reveals Ken's lineage. Also quite cool are **Psycho Diver** and the long-awaited release of **Dragonball Z**. Finally, if those **Ryo Ohki's** really show up THIS month ...
